AUDIO

The Audio home theatre seating collection offers refined, contemporary style on a smaller scale. Space-savings come from the slender track arm that has a small, subtle radius. The power headrests are nicely padded with an extensive range of travel to offer the utmost comfort regardless of your height, while the chaise style seating provides full body support for maximum relaxation. The Audio's wallhugger capability ensures seats can be placed inches away from the wall, while maintaining the ability to fully recline. Meanwhile, high-resiliency foam seating provides comfort and support whether sitting or reclining that lasts for years to come. Plush blown-fiber back cushions complete the home theater seating experience. Available in a multitude of configurations to suit any space, you can set up as many rows as needed to distinguish the lounging ambience for any occasion. As if these features were not enough, the Audio is compatible with a variety of accessories, all designed to enhance functionality and keep up with the demands of a highly functional space.

FEATURES

- Features: Single and double needle top stitching for luxurious tailoring (on leather and select fabrics), Hidden plastic glides integrated into the base, Keep all your devices charged and at your fingertips with built-in USB charging, 2.1 amp
