

Evolution

RO8040 Evolution Home Entertainment Seating 121F Black Leathersaire Fabric with Contrast Stitching

Evolution is a dream come true! Leathersaire is a sturdy fabric that looks like leather but is soft and adds to the comfort as the fabric “breathes”. Recline to your favorite position, then adjust the headrest to any position for ultimate comfort! Lighted cupholders add to the home theater with soft blue lights which romance the room. RowOne’s exclusive zipped in “crumb catcher” lining catches coins, popcorn and other debris for easy cleanup without moving the seat!

Lighted cupholder has touch-of-the-button power headrest, light, and recline control.

Deep storage arms hold electronics, games and overhead projector among many other uses.

RO8040-08H Power 2-Arm Recliner
